Text :

It's OK to eat fast food occasionally but fast food is high in calories. So, if you always eat a hamburger and chips you can easily become obese. You must eat homemade food because it is healthier.

Everybody knows that fast food is cheap and quick. However fast food is not as tasty as homemade food. Young people prefer to eat pizzas, hamburgers and French fries but they should eat soup instead and more fruits and vegetables. Fast food companies spend lots of money to make people believe that fast food is cool. The average American eats three hamburgers with French fries a week. Is it surprising that 14 % of American teenagers are obese? Health care is devoted to create new eating habits so that we can have a healthier generation.

Obesity can lead to other diseases such as diabetes and heart strokes. This is why America is now starting to fight back against the fast food companies. They are stopping serving fast food in school cafeterias and restaurants serving traditional food are opening now.

Part one : (14pts)

I. Reading comprehension : (7pts)

Task 01: I pick from the text. (2pts)

healthy food	unhealthy food
1)	1)
2)	2)

Task 02: I answer the questions. (2pts)

- 1) Is fast food healthy?
