The International Conference on Applied Smart Systems(ICASS2018) will be held in Medea University from 24 to 25 November 2018. ICASS2018 is organized by Laboratory of Advanced Electronic Systems (LSEA) and the University of Médéa, Algeria, with the collaboration of the Laboratory of Applied Automation and Industrial Diagnostics (LAADI) of Djelfa University, Algeria. The conference will provide a platform for researchers, experts, practitioners, industrials, academics, from over the world to congregate and share their findings, ideas, scientific knowledge and new techniques/ applications about latest developments in their respective domain related to the theory and practice of smart systems and technologies.

Submission

Papers must be in English, and must not have been published, submitted or accepted for publication elsewhere. All manuscripts will undergo a peer review process coordinated by the Scientific Committee and judged on the basis of their clarity, relevance, originality, and contribution. Instructions for preparation and electronic submission are available on ICASS2018 website.

Publication

All conference papers will be published in ICASS2018 proceedings which will receive an official ISSN code. Some selected papers by an objective peer review process will be recommended as special issues to indexed journals, like Journal of Intelligent Systems (<https://www.degruyter.com/view/j/jisys>), International Journal of Computing and Digital Systems (<http://journals.uob.edu.bh/IJCDS>) and other pending journals.

Important dates

Workshop and session proposals	30 june 2018
Full paper submission	30 July 2018
Notification of acceptance	15 September 2018
Submission of camera-ready	30 September 2018
Author's registration	10 October 2018

Topics but not limited to

- Intelligent Technologies
- Control Systems and Robotics
- Intelligent Transportation Systems
- Smart Engineering Materials
- HVAC Smart Systems
- Mechanical Smart Systems
- Smart Houses and Cities
- Smart Health
- Agriculture Automation
- Intelligent Management Systems
- Embedded Computer Systems
- Green Communication
- Green Computing
- High Performance Computing
- Image and Video Processing
- Internet of Things
- Mobile and Wireless Networks
- Big Data and Smart Systems
- Biometrics and Smart Systems
- Cloud Computing
- Communication Systems
- Computational Intelligence
- Cyber-Physical Systems
- Dependable Computer Systems
- Security and Privacy
- Smart Antennas
- Smart sensors
- Intelligent instrumentation
- Smart Systems for Green Energy
- Smart Systems in Business Information Systems
- Software Engineering for Smart Systems
- Intelligent Power Systems and Environments
- Smart Systems and Technologies in Education
- Applied Electromagnetics in Smart Systems
- Applied Smart Systems in Engineering Processes
