

EXAM OF ENGLISH
SECOND YEAR OF TECHNOLOGY
2016/2017

NAME:
OPTION:
GROUP:

EX1: Translate into Arabic, French or English (8p)

Energy	
Wind turbine	
Force	
Gravity	
Spark plug	
Intake valve	
Density	
Geothermal	

Gear box	
Generator	
Row	
quadrant	
	مصفوفة
	العمود في المصفوفة
	طاقة متجددة
	البكرة

EX2: true or false (3p)

- There is no difference between the Diesel and Gasoline Engine:
- The experience of hammer and feather was busted by NASA:
- We can use Solar energy in two forms:
- Wind turbine needs more than 15km/h to work:
- Gravity don't affect all objects in the same way:
- Archemdius found that gold and silver have the same density :

EX3: How the Gasoline Engine work?(5p)
